# POST COVID-19 LOCKDOWN ROBOTICS & AUTOMATION

Practical and Affordable Steps

Tuesday 13<sup>th</sup> October 2020  
10am - 11:30am

Circle2Success and MTC working together to support the manufacturing & engineering sector through these troubled times. We have created a web event to help answer many of the questions manufacturers have today – How do I move my business forward successfully? What does the future hold for my business? Join us to get answers to your questions and expert advice on how to deal with the 'New Norm'.

**Join us as we discuss the challenges faced by manufacturers in the COVID-19 crisis.**

Have you been thinking about introducing automation into your business but need guidance on the best approach to take?

Are you an SME who is looking for automation and robotics support?

**Speakers:**

Phil Jackson, Technical Specialist, Automation & Robotics, The MTC

Tom Rooke, Project Leader, Business Transformation, The MTC

Phil and Tom will be discussing some critical factors for successfully introducing Automation & Robotics. They will also be looking at what to avoid and share their insight into what opportunities are available to SMEs.

**What will delegates take away from 'Automation & Robotics: Practical and Affordable Steps'?**

- Best approach to automation for your business
- Where to find automation and robotics support for SMEs
- Real-life case-studies of successful automation and robotics adoption in SMEs
- The different types of automation and robotics
- How to integrate automation in your existing work environment

**Case-studies**

Examples of MTC supporting clients with introducing Automation and Robotics into their businesses.

The MTC is one of only a few organisations that currently have access to REACH match funded support for SME's and can also provide expert Automation and Robotics support to any project undertaking.
